

Dear Customer,

Baltic Rail is a container train operator running in the Baltic Adriatic Rail Corridor since 2011. Today we run from Koper regularly 2 times per week with the next schedule:

1st train: Koper Monday – Wrocław Wednesday – Katowice Thursday – Koper Monday

2nd train: Koper Tuesday – Wrocław Thursday – Ostrava Sunday – Koper Tuesday

Transit time on the rail is 33 hours.

Pre-carriage and on-carriage by road truck to be arranged in accordance to your request.

We use standard SggRss 80' intermodal wagons to transport SOC **20' and 40' DV/HC containers**. The train will also carry special COC 40' flat-racks designed for steel-coils, palletized cargo and long cargo. Space in flat-racks is available for rent.

Flat-racks have **external dimensions** of ISO 40' High-Cube containers.

Covered with sliding soft-roof, which allows side and top loading. Roof is lockable and can be sealed.

Coil cradles are foldable to create a **flat floor** for loading palletized and long cargo.

Max neto payload

- 48 tons per flat-rack
- 6 cradles
- max 17 tons per one cradle

Max coil diameter 1.7 m; max coil width 1.9m

Internal max. loading dimentions:

- Length 11.8 m
- Width 2.25 m
- Height 2.2-2.4 m (from outside to center)
