

Baltic Rail AS is a container train operating company inside Rail World Group.

Baltic Rail runs intermodal trains in the Baltic Adriatic Rail Corridor between the Baltic and Adriatic Seas. Independence is assured by our own wagons, locomotives and terminals. We also provide railway forwarding in both European gauge (1435mm) and Russian gauge (1520mm). We focus on transporting all types of container as well as project shipments. We work closely with Rail Polska, a wholly-owned subsidiary of the Rail World Inc.
